Biography

Dr Mettu Srinivas Reddy is the Director of Liver transplantation and Hepatobiliary & Pancreatic Surgery at Gleneagles Global Health City, Chennai, India. He has trained in world-renowned centres in India and the United Kingdom and has accumulated more than 20 years of experience in treating patients with liver and pancreatic diseases. His expertise in liver diseases & liver transplantation is well-recognised and he is a regular speaker at national and international conferences.

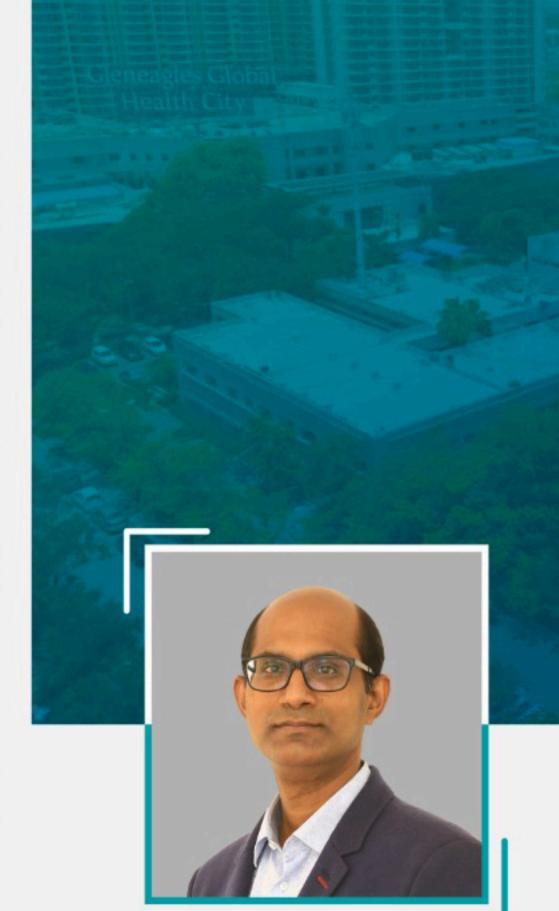

He has over 100 peer-reviewed scientific publications and has authored multiple textbook chapters including co-authoring a chapter in 'Gray's Anatomy'. His current research is targeted towards novel techniques to treat liver tumors and a better understanding of liver recovery & regeneration after surgery. Dr Mettu Srinivas Reddy believes in a truly multi-disciplinary approach to managing adults and children with complex liver problems and is strongly focused on excellent clinical outcomes and improving overall patient experience.
